Although the above-identified application is listed as pending in PAIR, it has come to Applicants' attention that the application may be abandoned. In brief, Applicants filed a request for entry into the US national phase on August 31, 2006, including a form PTO-1390. Although the form PTO-1390 provided applicants' deposit account number, the box indicating to charge the basic filing fee to this deposit account number was left unchecked. If as a result of leaving this box unchecked, the application is deemed abandoned, the date of abandonment would be the day after expiration of 30 months from the earliest claimed priority (i.e., March 2, 2004).

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14).
